

Internet use guide

1. Introduction

- Free Internet service is provided for guests during their stay in each room as well as in the 2nd floor lounge, however, you must have your own Internet device (such as a personal computer, tablet, or smart phone) to access it.
- Please set your Internet device by yourself. The manager of Tsushima Lodgings cannot assist you nor can they answer any technical questions.
- Wired connection in the 2nd floor lounge is available for use by a maximum of two people. Please take turns with other groups, if necessary.
- Please use earphones or mute computer speakers when listening to sound in the 2nd floor lounge so as not to disturb other guests.
- Only guests of Tsushima Lodgings are permitted use of the Internet service.

2. Precautions

Read the following precautions carefully before using the Internet at Tsushima Lodgings:

- Please refrain from using the Internet for long periods of time (e.g. sending and receiving large files). Be considerate of the other guests.
- Please be aware that the wireless Internet signal might be weak in some locations of the building.
- We cannot assume responsibility for any virus infections or failure to connect with the Internet.
- Some Internet devices may not be able to connect, depending on the configuration of your device and software installed.
- We cannot assume responsibility for any losses due to a system breakdown.
- Please note that we do not take any responsibility or liability for theft.
- Please do not send junk e-mail and use file sharing software.

3. Connection

- For wireless Internet access, please check the 『Wi-Fi password』 in each room.
- Please let the manager know if there is something wrong with the Internet service.
