

## Okayama University Guidelines on Activity Restrictions to Prevent the Spread of the Novel Coronavirus Infection

[Policy] The purpose of these guidelines is to protect the lives, health and safety of all constituent members of the university. The guidelines have been formulated to urge an appropriate transformation in the awareness of the constituent members of the different levels of restrictions on activities in the university through explanations and visual information.

[Points to bear in mind] 1. In principle, these guidelines are common to the whole university, but judgments may be made by each campus or division of the university in accordance with the infection situation. When facing difficulties making judgments, refer back to the policy.

2. These guidelines do not apply medical personnel or persons engaged in coronavirus research.
